

DURABLE MONOCHROME

The Evolis High Trust® KO ribbon has been specifically engineered to bring durability to monochrome personalization. The KO ribbon has 2 panels; a black panel (K) to print black text or barcode and a clear overlay panel (O) to apply a thin protective film.

ADVANTAGES

The card can last years longer than the ones printed with a standard Black monochrome ribbon. It is highly recommended when the durability expected is around 2/3 years.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

GENERAL SPECIFICATIONS

Features:

- Ribbon in PET with thin layer of specialized coatings
- 2 whole panels black, Overlay 98 mm length
- Compatible with PVC or composite cards
- For thermal transfer technology

Compatibility and capacity:

Product Information

- Monochrome ribbon
- 2 panels (Black -Overlay)
